# Institut Parfumeur Flores

Bunch, [www.bunchdesign.com](http://www.bunchdesign.com)

Zagreb's Institut Parfumeur Flores is a shop, perfumery, and a little coffee place, all in one. Having an array of different pieces to brand for this new store's comprehensive identity, Bunch created a set of geometrical flowers. These can easily be used, in isolation or all together, to convey the brand and quickly identify it as belonging to the world of scents and perfumes.
